HSC Physics
HSC Chemistry

MATHEMATICS YEARLY TUITION

To be successful in Mathematics your child must develop a strong understanding of the concepts, then learn how to apply their knowledge to a wide range of questions. In PRIOR classes, your child will gain an understanding of their entire course and in workshops they will develop your child's problem-solving skills.

ENGLISH YEARLY TUITION

Since at least two units of English must be counted towards your child's ATAR, it is vital to perform well in this subject. PRIOR English programmes will help your child excel in English by expanding their grasp of written expression and literary analysis, as well as giving them extensive individual assistance with their prescribed school texts, related texts and school assessments.

PHYSICS & CHEMISTRY YEARLY TUITION

The current Physics and Chemistry syllabuses require your child to master a wide range of skills. A PRIOR tuition programme will not only help them understand the theory and perform calculations, but also learn how to write extended responses which demonstrate their grasp and appreciation of the technical, practical, environmental and historical aspects of their course.

Hello! Thank you for your interest in PRIOR Education, Australia's leading HSC tuition college.

Education is one of the most precious gifts you can give your child. It is the key to a rewarding and fulfilling career, wonderful opportunities and a prosperous life.

A teenager's mind has tremendous potential. With expert guidance, a student will develop a love of learning, gain confidence and improve rapidly. By giving your child the very best educational opportunities, you will help them create the brightest future possible.

In 1976, as a university student, I began tutoring Mathematics to high school students. Fortunately, I had some very inspirational guidance from my father, who emphasised that a good teacher must make their students think for themselves. He explained to me that his can be done by asking a series of carefully constructed questions, rather than simply lecturing and expecting students to learn by memory alone.

I soon discovered that this questioning technique was very

effective indeed and my students were achieving extraordinary success at school and in the HSC. As their understanding and problem-solving skills increased, their confidence and self-reliance was growing week by week.

I started building my team of elite tutors in 1990. Since then, my team and I have spent countless thousands of hours developing and refining our carefully structured educational materials and fine-tuning the PRIOR Questioning Technique. We have expanded our range of tuition programmes to Mathematics, English, Physics and Chemistry and I am proud to say that our teaching methods and original resources are widely considered to be the best of their kind in Australia.

These days I enjoy teaching more than ever! I love to share my passion for education and am personally involved in selecting, training and developing my staff and aligning them with my vision.

PRIOR teachers and tutors have exceptional knowledge, superb communication skills and are inspiring role models for our students.

To date, we have helped more than 20,000 students succeed in their studies. We are committed to doing whatever it takes to help our students achieve their maximum potential. But our commitment alone is not enough. The key player in any learning environment is the student. If your child is prepared to commit to our programme and make their best effort, we can certainly help them succeed.

The competition for university places is fierce. In the face of this, PRIOR tuition programmes will give your child a massive advantage. The next step is to meet with us to discuss how we can help your child achieve exceptional results at school and in the HSC.

We look forward to meeting you soon.

Warm regards,

Rob Prior
Founder and Head Teacher
PRIOR Education Australia

WEEKLY CLASSES

PRIOR weekly classes are a lively blend of theory, application and discussion. Starting from the fundamentals, your child's class teacher will explain every aspect of the work at a level they can easily understand. Your child will also be actively involved in class discussions to gain a deeper appreciation of the work being studied. Most importantly, your child's questions will be listened to, respected and answered in a way that makes sense to them.

DETAILED NOTES

In classes, your child will receive exclusive PRIOR lesson notes, which are comprehensive, clear and concise. For Mathematics, Physics and Chemistry, the notes cover your child's entire course in great detail and are completely up-to-date with the current Board of Studies syllabuses.

For English, PRIOR notes cover all the aims and objectives of the curriculum, along with detailed explanations and discussions of key topics and literary theory to give your child a deeper and more sophisticated understanding of their entire course.

WEEKLY HOMEWORK AND MARKING

To reinforce what your child has learned in their class, they will receive PRIOR homework each week. The homework starts with the type of questions that are commonly seen in assessments and exams... and if your child attempts the more challenging Distinction Questions, those elusive top marks will be within their reach.

To give your child immediate feedback on their progress, the class tutor will mark and return their homework with helpful hints and comments, on the day your child submits it.

WEEKLY WORKSHOPS

After your child's homework has been marked and returned to them, the next step is to attend a workshop. In workshops, your child will receive individual assistance from their tutor to correct and improve their PRIOR homework and exam responses, so your child will learn how to produce solutions and responses of the quality that examiners expect.

EXAMS AND EXAM REVIEWS

A key to your child's success in their studies is being able to apply their knowledge in exams. During the year, your child will sit a number of PRIOR exams under exam conditions, which will help them revise their work, learn to manage their time effectively, perform well under pressure and discover the areas in which they need to improve.

After each exam has been marked, your child will review it with their workshop tutor and learn how to improve their performance in future exams and assessments.

HOMEWORK AND EXAM DEADLINES

An important feature of the PRIOR Learning System is the strict schedule of deadlines that your child will follow for the submission and correction of their homework and exams. This disciplined approach will ensure that your child will keep up-to-date with their work throughout the year and gain the maximum benefit from their tuition at PRIOR.

OUR MISSION: TO HELP YOUR CHILD GAIN THE KNOWLEDGE, UNDERSTANDING, SKILLS AND CONFIDENCE TO ACHIEVE EXCEPTIONAL RESULTS IN YEARS 7 TO 12 AND THE HSC!

ADDITIONAL ASSISTANCE

To succeed in their studies, your child must have determination, commitment, effective learning skills, efficient time management and the ability to keep calm under pressure. We can give your child valuable guidance and support in these areas and help them stay focused and on-track with their PRIOR and school work throughout the year.

If your child would like further help on any topic from their course, they may receive up to 30 minutes of one-on-one tuition from the class teacher or tutor before their weekly class, at no additional charge.

Your child is also welcome to attend a two-hour Supervised Study Session each week, to receive additional assistance with school or PRIOR work from one of our Mathematics, English, Physics or Chemistry tutors.

Extra one-on-one tuition is also available at an hourly rate.

PRIOR REWARDS PROGRAMME

The PRIOR Rewards Programme is our special way of recognising your child's level of diligence in their yearly tuition programmes and motivating them to achieve exceptional results in their studies.

Throughout the year, your child will earn PRIOR Reward Points for attempting and correcting the questions on their PRIOR homework and for achieving our targets in their PRIOR exams. By earning the required number of points, your child can qualify for our end-of-year celebration... and even special awards if they are one of the top point scorers.

PRIOR ONLINE STUDENT SYSTEM

The PRIOR Online Student System (POSS) is our exclusive online system, available to you and your child. It allows you to keep track of your child's progress during the year and gives you and your child access to a wide range of valuable educational materials.

PRIOR RESOURCE CENTRES

To support your child in all their school subjects, they'll have seven-day access to a vast range of course textbooks and valuable study materials in the Resource Centre at each PRIOR college.

PRIOR FUNDRAISING INITIATIVE

PRIOR Education proudly supports The Fred Hollows Foundation.
